

Company Overview

Home Connect is a Zimbabwean-based social enterprise offering holistic support to children of local and diaspora parents. We provide comprehensive services that bridge the gap created by physical separation. Our mission is to provide emotional, educational, and social services that promote emotional wellness, academic excellence, and family connection.

MISSION AND VISION

Mission

To empower and support children of local and diaspora parents through accessible, professional, and responsive services that promote emotional wellness, academic excellence, and family connection.

Tagline

Connecting children, strengthening families, building futures.

Vision

Every child, regardless of parental distance, has access to emotional security, educational success, and stable family support.

Objectives

- a) To enhance children's overall well-being, support, and safety through comprehensive welfare programs and robust child protection oversight.
- b) To deliver academic support and counselling services, thereby ensuring improvement in school performance and emotional well-being.
- c) To establish partnerships with schools, NGOs, and churches, thus enhancing parent-child connections and community involvement.

Core Values

- 1. Empathy: Every family is treated with compassion and respect, with full acknowledgment of their unique experiences and challenges.
- 2. Integrity: Transparency in service delivery and client relations is consistently upheld, building trust and accountability.
- 3. Inclusivity: Children from all backgrounds, cultures, and socio-economic statuses are embraced and supported.

4. Collaboration: We work with parents, schools, caregivers, and institutions to provide comprehensive support to children.
5. Empowerment: Confidence, resilience, and potential are nurtured in children through personalized and responsive support services.
6. Professionalism: Services are delivered with adherence to social work ethics, child rights principles, and the provisions of the Children's Act Chapter 5:06, ensuring accountability and protection of every child.

OUR SERVICES

- ❖ Monitoring and Welfare Check-ins: Trained social workers conduct regular home visits and phone check-ins to assess living conditions, health, and schooling. This proactive monitoring guards against abuse and neglect, directly addressing vulnerability.
- ❖ Child Protection Oversight: Any concerns (e.g. abuse, neglect) are reported immediately to social welfare authorities. This strengthens statutory child protection by providing local oversight of children who might not have somebody to protect them.
- ❖ Parent Reporting: Detailed updates (written or calls) are provided to parents after each check-in. This maintains a line of communication, helps parents remain informed and reassured about their child's safety, and fulfills parental involvement in the child's care.
- ❖ Education Support and Coordination: We engage directly with schools to ensure every child's progress. Our services include conducting school visits, attending parent-teacher meetings on behalf of parents or guardians, and liaising with teachers and school authorities to create strategies that bring the best results for the child.
- ❖ Emotional and Mental Health Support: Professional counsellors provide one-on-one and group counselling sessions to children, parents, and guardians. This helps to process separation and anxiety. We also offer Hospital accompaniment services for children.
- ❖ Emergency Response Services: Through our 24/7 helpline, we play an active and immediate role in times of crisis. We promptly contact relevant authorities (e.g. police), provide immediate presence and direct support to children and families until the situation is stabilized.
- ❖ Guardian Vetting and Training: Before a child is left with a relative or guardian, Home Connect conducts background checks and home visits. Our vetting process ensures guardians' suitability (age, health, stability, and commitment) in accordance with the Children's Act Chapter 5:06. Approved guardians receive training on child rights and responsibilities, basic first aid, and nutrition.

- ❖ **Payment Facilitation and Verification:** Managed remittances, transparency and receipts, and financial counselling to support accountability.
- ❖ **Errand and Delivery Services:** We offer essential errand-running services, home deliveries, and practical support to ensure that no child goes without crucial support due to logistical barriers.

Target Audience

Home Connect serves families and institutions committed to the well-being of children:

Local Parents: Parents within Zimbabwe who need professional support in monitoring children's welfare, emotional health and academic progress.

Diaspora Parents: Zimbabwean parents living abroad who want trustworthy, transparent updates about their children's welfare, education and emotional growth.

Guardians: Caregivers raising children of absent parents who need guidance, training and emotional support.

Children: Those facing emotional, academic or social difficulties due to parental separation or household challenges.

Institutions: Schools, NGOs and Churches seeking partnerships in counselling, mentorship and family strengthening

Private and Security Policy

At Home Connect we protect the personal information of children, parents and guardians with utmost confidentiality and care in line with Data Protection Act (Chapter 11:12) of Zimbabwe 2021, Children Act (Chapter 5:06) and Constitution of Zimbabwe (Section 57) right to privacy.

All data is securely stored, encrypted and accessed only by authorized staff. We collect information solely for service delivery, with full parental or guardian consent.

Records are kept for up to five years and then safely deleted. Any data breach will be reported within 48 hours to affected users and the Data Protection Authority of Zimbabwe
